Dear City Council,

I am writing to express my disagreement with the project proposed for the Sunset Magazine site. This project will have tremendous adverse effects on the Menlo Park Community. It will adversely impact the environmentally sensitive San Francisquito Creek, will destroy a historically important building, and will overload the already overcrowded Willow Road path to the 101 freeway. I understand it will also create more jobs than housing, resulting in a net negative housing component - the opposite of the intent of the Builder's remedy. Menlo Park needs more housing, but this housing must be built in a responsible and sustainable way. The current proposal accomplishes neither of these. I encourage the city council to pursue all legal options while evaluating this current Sunset Magazine proposal.

Thank you.

A handwritten signature in black ink that reads "Stephen Andrew". The word "Stephen" is written in a cursive style and is circled with a large, loopy flourish. The word "Andrew" is written in a more straightforward cursive script to the right of the flourish.

Stephen Andrew
